"I just wanted to say what a wonderful time I had on my hunt. It was everything I had hoped for!"

Tim Cohick - Rindge, New Hampshire, USA

"I really appreciated how you handled the whole covid situation. I felt you handled it very professionally and as well as could be expected. Thanks for a great hunt!"

Ted Inman - Fairbanks, Alaska, USA

"Thanks again for a great hunt!"

Danny Siegler - Waterloo, Illinois, USA

"Overall, a great experience. Very pleased with the nice caribou: however a little disappointed in not bringing home a ram this time. This is why these excursions are called hunting trips and not killing trips. It makes me appreciate the sheep I have taken even more!"

Steve Reisner - Ladysmith, Wisconsin, USA

"First of all I want to thank you for this amazing adventure in the vast landscapes of the Yukon. The hunt was perfectly organized."

Ulrich Schmidt Dumont - Cologne, Germany

We recently completed the first full operating season since Covid hit Canada with border closures. After 37 years, we are very proud of our "brand" and unique service we offer to hunters from around the world...an old fashion wilderness, horseback trip. When you look at these pictures of our hunters with their kill, you need to imagine the intense effort required! Nothing comes easy on these hunts. There is no helicopter support, busy argo/atv trails, or high fence, grain feeding stations. Just hunters, guides, wranglers, riding through mountains that show few scars of human development.

Steve Amick hunted moose and caribou with us way back in 1997. He finally scheduled a return trip and did well with a heavy 36" dall sheep.

Thomas Dellschau, Ulrich Dumont and Andre Fannenbruck came over from Germany to harvest 67", 64 1/2" and 58" moose with great palmation, on an early September timeframe.

Jason Devore changed spike camps three times and rode horses over 70 miles on his hunt. He was eventually rewarded with a nice 37 1/2" ram and big caribou from our Delores Creek camp.

Todd Mezeske and

Tim Cohick were both successful in taking moose, 67" and 56". They also killed caribou with Tim Cohick shooting his bull right in Bonnet Plume Lake on the ride home.

Bowen Corbett from Georgia, was on his first quest for Dall sheep and after climbing many mountains was rewarded with a nice looking ram.

Jack Catron hunted with us many times and has taken all game species (moose, caribou, dall sheep, grizzly and wolf). This year he coordinated a trip for his friends from Bozeman, Montana. All four of them were successful in shooting at or harvesting good looking moose. The late September weather conditions were brutal, constant rain & wet snow, but everyone stayed with it and hunted hard. Jack managed to hunt caribou for only one day and harvested a fantastic bull in a snowstorm.

Henrik Larsen and Kristian Pedersen flew over from Denmark. International flying these days is always an adventure, filled with the possibility of cancelled flights and lost luggage. They returned home with many super memories, as well as two nice moose trophies, one mountain caribou and a wolf.

Steve Reisner and wife Kim came up to hunt in early August. This was Steve's 5th hunt here and he has seen a large chunk of out outfitting area. Unlike past trips he did not harvest a ram this time, but did take a big, high scoring caribou.

Now we move on to thinking about next seasons hunt. There has been a trend recently for hunters to plan and book trips years in advance. So, at the moment we have only a few spots left for 2025 and are actively booking for the 2026 season. Safe travels, good health and successful hunting!
